Husham Idan Hussein

Assist. Prof.
University of Diyala
, College of Engineering, Iraq, Dep. of
Electrical Power

Electrical Power System
Optimization of Power System
Power System State Estimation
Renewable Energy.

TITLE	CITED BY	YEAR
Phase Measurement Units based FACT's Devices for the Improvement of Power Systems Networks Controllability. HI Hussein, GA Salman, MS Hasan International Journal of Electrical & Computer Engineering (2088-8708) 8 (2)	16	2018
Enhancement the dynamic stability of the Iraq's power station using PID controller optimized by FA and PSO based on different objective functions GA Salman, HI Hussein, MS Hasan Elektrotehniski Vestnik 85 (1/2), 42-48	8	2018
Neural Network Controller Based Dstatcom for Voltage Sag Mitigation and Power Quality Issue HI Hussein International Journal of Engineering and Technology (IJET) 8 (1), 405-420	6	2016
Enhancement the stability of power system using optimal location of FACTS devices HI Abdullah, A.N., Ghadhban, A.M., Hameed, H.S., Hussein Indonesian Journal of Electrical Engineering and Computer Science, 18 (2 …	5 *	2020
A hybrid model for state estimation prediction composed of neural network and PSO algorithm for Iraqi national super grid system HI Hussein, AM Ghadhban 2018 1st International Scientific Conference of Engineering Sciences-3rd …	5	2018
Assessment of voltage stability based on power transfer stability index using computational intelligence models AM Ghadban, GA Salman, HI Hussein Int. J. Electr. Comput. Eng 11 (4), 2790-2797	4	2021
Employment of PSO algorithm to improve the neural network technique for radial distribution system state estimation HI Hussein, GA Salman, AM Ghadban International Journal on Smart Sensing and Intelligent Systems 12 (1), 1-10	4	2019
Prototype of implementation SVPWM inverter in RTI with V/F control based reluctance machines application MS Hasan, GA Salman, HI Hussein International Review of Electrical Engineering 13 (3), 178-184	4	2018

TITLE	CITED BY	YEAR
State Estimation via Phasor Measurement Units for Iraqi National Super Grid Power System Network HI Hussein Iraqi Journal for Electrical and Electronics Engineering 12 (1), 12-22	4	2016
MATHEMATICAL DRIVING MODEL OF THREE PHASE INDUCTION MOTORS IN STATIONARY COORDINATE FRAME HIH Ahmed Ibrahim jaber1 Diyala Journal of Engineering Sciences, 255-265	4 *	2015
On-Line UPS with Low Frequency Transformer for Isolation HI Hussein Iraqi Journal for Electrical and Electronic Engineering 10 (2), 100-106	4	2014
Harmonics Elimination PWM (HEPWM) HI Hussein International Journal of Engineering Research and General Science, 2 (2 …	3	2014
Harmonic Amplification Damping Using a DSTATCOM-based Artificial Intelligence Controller RAM Husham Idan Hussein , Ahmed K. Jameil International Journal of Sensors, Wireless Communications and Control 9 (2)	2	2019
OPEN LOOP &CLOSED LOOP VECTOR CONTROL of VFD THREE PHASE VERSION INDUCTION MOTOR DRIVES JAI Husham Idan hussein	1 *	
Voltage stability assessment prediction using a guide strategy-based adaptive particle swarm optimisation-neural network algorithm IH Husham, HS Naji, GA Salman International Journal of Power Electronics and Drive Systems 13 (4), 2199		2022
Hybrid PV/Wind/Battery/Diesel Generator Energy System for Hyderabad City, Pakistan HI Hussein, AM Ghadhban Diyala Journal of Engineering Sciences 8 (3), 124-138		2015
Design A Buck Boost Controller Analysis For Non-Idealization Effects HI Hussein Australian Journal of Basic and Applied Sciences (AJBAS),"http://www …		2014
power system security analysis using grid computing HIhussein UTM.my		2012
Employment Compensation Capacitor to Improve Two Stage CMOS Operational Amplifier Design AK Jameil, HI Hussein
